

The influence of fat mass on fat-free mass in healthy adults R.F. BURTON	109
Standard obesity cut points based on BMI percentiles do not equally correspond to body fat percentage across racial/ethnic groups in a nationally representative sample of children and adolescents O. AFFUSO, M.S. BRAY, J.R. FERNANDEZ and K. CASAZZA	117
Waist size and shape assessed by 3D photonic scanning A.D. STEWART, A.M. NEVILL, R. STEPHEN and J. YOUNG	123
Relationship between body mass index and percent body fat in aging females B.A. EWING and M.P. GODARD	131
Longitudinal changes in body composition and sarcopenia assessed by bioelectrical impedance spectroscopy in elderly Swedes M. TENGVALL, L. ELLEGÅRD, L. LISSNER and I. BOSAEUS	139
Accuracy of body mass index to determine overweight in youth D.P. COE, J.J. ODE, K.A. PFEIFFER and J.M. PIVARNIK	147
A tribute to James M. Tanner ANGELO PIETROBELLI and STEVEN B. HEYMSFIELD	155
